

Compact

Shipping container wheels · set of 4 · twistlock connection

Rev. 10/2026

Dynamic load capacity (per set of 4)
5,400 kg

Static load capacity (per set of 4)
7,200 kg

Technical specifications

Wheels per set	4 swivel casters with brake
Wheel size	Ø 150 × 76 mm
Overall height	334 mm
Mounting plate	184 × 138 mm
Static load per wheel	1,800 kg
Tread	Polyurethane, 95 Shore A
Wheel core	Galvanized cast iron
Housing	Welded steel
Bearings	6205 2RS ball bearings
Directional lock	4 × 90°
Max. permitted speed	4 km/h
Attachment	ISO 1161 twistlock, tool-free
Availability	In stock

Good to know

- For empty 10 ft to 45 ft containers, site cabins and light loads. An empty 20 ft container (about 2,200 kg) leaves room for about 3,200 kg of cargo.
- The low 334 mm height fits easily under a container and suits indoor use such as exhibition halls and warehouses.

Always check that the total weight of container plus contents does not exceed the dynamic load capacity of the wheel set. Specifications may change without notice. Find the right set with the container wheel selector: [twistlockdynamics.com/container-wheel-selector](https://www.twistlockdynamics.com/container-wheel-selector)
