Availability	In stock

Good to know

- For loaded 20 ft and 40 ft containers and medium-weight systems such as generators and equipped workshops.
- A loaded 20 ft container can carry about 11,300 kg of cargo on this set.

Always check that the total weight of container plus contents does not exceed the dynamic load capacity of the wheel set. Specifications may change without notice. Find the right set with the container wheel selector: twistlockdynamics.com/container-wheel-selector
