Availability	Made to order

Good to know

- Same capacity as the Pro, with a side-lock connection instead of a twistlock.
- For loaded containers and containerized systems up to 13,500 kg in total.

Always check that the total weight of container plus contents does not exceed the dynamic load capacity of the wheel set. Specifications may change without notice. Find the right set with the container wheel selector: [twistlockdynamics.com/container-wheel-selector](https://www.twistlockdynamics.com/container-wheel-selector)
