Breaking strength	500 kN
Set	8 pieces: 2 × bottom left, bottom right, top left, top right
Finish	Primer coating
Mounting	Weld-on, can be safely welded

Good to know

- Turns any frame, skid or enclosure into an ISO-compatible unit that can be fitted with Twistlock Dynamics container wheels.
- Typical uses: battery storage enclosures, generator skids, machine frames and custom containers without corner castings.

Welding must be carried out by qualified personnel according to the applicable standards. Specifications may change without notice. Questions? Contact support@twistlockdynamics.com.
